"Guillesa is a fabulous company to work with. We know our furniture is in good hands from the moment it is delivered in the states, through the container process, on the boat and with on-time delivery to their warehouse in Cancun. The merchandise arrives unharmed and everything is accounted for. The staff we work with have been there for ages and we trust them to do our freight forwarding. They have been our one and only freight forwarder since the day we opened our business. Nobody does it better than Gillesa."
