

LIMITATIONS OF INTERNATIONAL COURIER COMPANIES

- They can only perform Customs Declaration for Permanent Imports, which goods must pay the IVA and IGI taxes without taking into consideration if the goods are Giveaways, Temporary Material or have the logo of the event.
- The majority of International Couriers send their shipments to Cancun through Mexico City or Toluca, having to clear customs in those arrival ports.
- They can only clear customs if the value of the merchandise is less than \$1,000 U.S. Dollars and if it does not have to comply with any special regulations.
- A lot of the time they do not have your merchandise ready on time for your event.
-
